

Securityhunter Awarded Enterprise-Wide Security Solutions BPA by U.S. Department of Health and Human Services - Program Support Center

Securityhunter was awarded a Blanket Purchase Agreement (BPA) to provide security services for the U.S. Department of Health and Human Services' (HHS) Program Support Center. Securityhunter, along with its versatile and experienced team, will provide federal agencies with a simplified and accelerated means of securing a wide-range of physical security solutions at discounted General Services Administration (GSA) rates, including those which meet Homeland Security Presidential Directive-12 (HSPD-12) requirements.

Baltimore, MD ([PRWEB](#)) March 3, 2011 -- [Securityhunter](#) secures a BPA to provide a comprehensive range of security solutions to all federal agencies through the [Program Support Center](#)(PSC). The BPA provides for streamlined and timely security related procurements at reduced GSA rates through the PSC. The PSC provides support services to the U.S. Department of Health and Human Services (HHS) and other federal government agencies worldwide. Products and services provided through this BPA include, but are not limited to, [Homeland Security Presidential Directive-12](#) (HSPD-12) compliance solutions, risk assessments, physical access control systems, security system integration, closed-circuit television, design-build, security management and support services which include life cycle support.

In a GSA bid, open to both small and large businesses, Securityhunter was selected as the single source provider. "We are honored, as PSC's selection, to assist in securing our nation's federal space," says Michael Rogers, CEO of Securityhunter. "Securityhunter is a small business, and this award reflects the government's ability and willingness to work with small businesses that meet or exceed their requirements. This says a lot about our company, our amazing team, and the forward thinking of PSC." says Mr. Rogers. The team consists of Securityhunter, Price Waterhouse Cooper's federal practice, Northrop Grumman Information Systems, Stanley Convergent Security Solutions, Chugach Federal Solutions, Tetra Tech and Certipath LLC.

The BPA has a \$500 million ceiling spanning five years, and offers a full spectrum of security products and services found on GSA Schedules 70 and 84. These offerings are available at reduced GSA rates, which make purchasing through this Securityhunter BPA more cost effective. The simplified nature of purchasing security through this BPA will also help customers acquire products and services more efficiently, making it an attractive vehicle for federal agencies seeking to quickly acquire new solutions and upgrade existing systems and equipment.

About Securityhunter, Inc.:

Founded in 1988, Securityhunter targets security solutions which support a wide range of government and corporate security initiatives. Securityhunter designs, installs and maintains electronic security countermeasure systems for commercial and government facilities. Securityhunter offers professional security support services, which assist U.S. federal, state and local agencies with assessments and management of security tasks for mission critical CONUS and OCONUS operations.
